

# **Johne's Fast Track Herd and Property History Statement**

## **Herd Owner and Herd Veterinarian Affirm That:**

1. Both are fully aware of the management and disease history of the herd and the property during the past five (5) years.
2. Johne's disease is not known or suspected to have existed in the herd for the past five (5) years.
3. Cattle are not known to have been introduced from known infected herds during the past five (5) years. This plus a negative ELISA test on a whole herd or statistical subset of animals qualifies the herd for Level 2 status.
